

Possible application for thin-film extraction

Acetyl tributyl citrate	Fatty amides	Silicone polymer
Amino substituted urethane	Fatty amines	Sorbitan sesquioleate
Andydrous lanolin	Glycerol monostearate	Stearic acid - crude
Butadiene-acrylic acid polymer	Humulone complex	Soybean oil
Butyl benzyl phthalate	Iodinated ester	Soybean oil pitch
Butyl stearate	Laticethylester	Sugar cane wax
Candelilla wax	Lauremide	Sugar esters
Capryl wax	Leaf protein extract	Tall oil - crude (AFORE)
Carnauba wax	Lignite wax	Tall oil - heads (AFORE)
Cocoa butter	Linseed oil pitch	Tall oil - pitch (AFORE)
Coconut oil - crude	Liquid epoxy resin	Tall oil - polymerized fatty acids
Cod liver oil - oxidized	Lubricants & greases	Tin caprylate
Coffee oil - extract	Lyral - crude	Vitamin A
Coffee oil - crude	Methyl sucrose esters	Vitamin E
Cottonseed oil	Microcrystalline wax	Vitamin K-1
Cottonseed oil - peroxidized	Mixed vegetable fatty acids	Vitamin K-2
Cylinder stock (a petroleum fractionating tower residue)	Mixed vegetable grease	Vitamin K-3
Defatting of single cell protein	Monoglycerides	Vitamin K-4
Defatting of algae slurry	Monononyl phenol	
Defatting of egg yolk	Montan wax	
Dehydrated butynediol - crude	Oleyl amide	
Di-isocyanate - Chloroform	Perfume essential oils	
Di-isodecyl phthalate	Petroleum bottoms	
Dimer acid	Petroleum - mineral oil	
Distilled bees wax	Petroleum oil - heavy	
Di-stearyl amine	Petroleum oil - reduced	
Epoxy resins	Petroleum - slack wax bottoms	
Erucyl amide	Polyhydric alcohols	
Fatty acid & nitrile-pitch	Polyoxyethylene	
	Polyphenyl ether	
	Rice bran oil	
	Shark liver oil	
	Silicone oil
